What's an HMO plan?

With an HMO (Health Maintenance Organization) health care plan, you'll choose a Primary Care Physician (PCP) from our HMO network. Your PCP will probably be the doctor you see the most—for routine visits and care. Your PCP will also coordinate any other health care services you may need. And if you need to see a specialist, your PCP will need to make a referral.

HMO plans are also simple to use. Features like set copays for doctor visits help make your out-of-pocket costs more predictable. And maternity benefits make these plans ideal for growing families.

Prescription drug coverage included

The cost of prescription drugs can be staggering and is one of the leading causes of rising health care costs. To help control your share of the costs, all our HMO plans include prescription drug coverage for both generic and brand-name drugs.

Even when you select a plan that covers both generics and brand-name drugs, it's still a good idea to consider using generic drugs for the best value. Generic drugs have the same active ingredients as their brand-name equivalents, but normally cost less.

Save money by using our dental network

As a Dental Blue member, you can see *any* dentist you want; however, you do have the potential for lower costs when you choose a dentist in the Dental Blue 100 network. This is because network dentists have agreed to accept our negotiated rates for services they provide to you. If you choose to go to a provider outside of the Dental Blue 100 network, you can be billed the difference between our network negotiated rates and what your chosen dentist wishes to charge. But, with more than 20,000 California providers and provider locations in our Dental Blue 100 network, it's likely your dentist is part of our network!

Plus, network dentists have agreed to pass along our negotiated rates on covered services to you during waiting periods, if you exceed your annual maximum benefit, or if you exceed frequency limitations allowed for a covered service. For example, both Dental Blue Basic and Dental Blue Enhanced provide coverage for two cleanings per year. Members who get a third cleaning would receive our negotiated rates for that service.

You will also have access to emergency dental care from our worldwide listing of credentialed dentists while traveling or working nearly anywhere in the world.

Medical Underwriting Requirement

We believe that the cost of our plans should be consistent with your expected health care needs and risk factors. That's why Anthem offers various levels of coverage. To determine individual medical risk factors, all applications are subject to medical underwriting. Depending on the results of the underwriting review, a number of things may happen:

- You may be offered coverage at the standard premium charge
- You may be offered the plan you selected at a higher rate
- You may not qualify for the plan listed in this brochure
- You may be offered an alternate plan

If you have a significant medical condition and do not qualify for the plan you've chosen or if you have discontinued group coverage, please contact your Anthem representative for information regarding other Individual coverage options.

Important Information for Applicants Under the Age of 19

As provided by California AB 2244 (2010), an applicant under the age of 19 may be assessed a 20% surcharge for the 12-month period following the effective date of enrollment. The surcharge would apply if the applicant has not had continuous coverage during the 90 day period prior to the date of application and is not a late enrollee. If applying for coverage outside of the birthday month or a special late enrollee period, a higher rate may apply.

Medical Loss Ratio

As required by law, we are advising you that Anthem Blue Cross' medical loss ratio for 2011 was 80.9 percent. The 2011 medical loss ratio for Anthem Blue Cross Life and Health Insurance Company was 79.9 percent. These ratios were calculated after provider discounts were applied and based on state and federal regulatory rules and regulations including the federal MLR regulations.

Waiting Periods

For applicants age nineteen (19) and older, there is a specific six-month waiting period for coverage of any condition, disease or ailment for which medical advice or treatment was recommended or received within six months preceding the effective date of coverage. If you apply for coverage within 63 days of terminating your membership with another "creditable" health care plan, then you can use your prior coverage for credit toward the six-month waiting period. Anthem will credit the time you were enrolled on the previous plan. The pre-existing condition limitation does not apply to applicants under age nineteen.

Utilization Management and Case Management

Our Utilization Management (UM) services offer a structured program that monitors and evaluates member care and services. The UM clinical team, which is made up of health care professionals who hold active professional licenses and certificates, perform the prior authorization, concurrent and retrospective review processes explained below. The UM team follows criteria to assist in decisions regarding requests for health care and other covered benefits, and complies with specific timeframes to ensure requests are handled in a timely manner. Our case management services help you to better understand and manage your health conditions.

Prospective Review/Pre-Admission Review

Prospective review (also known as pre-service or pre-admission review) is the process of reviewing a request for a medical procedure or service before it takes place. The review occurs to ensure that:

1) the procedure is medically necessary and 2) the procedure meets your health care plan's specific guidelines prior to being performed. Requests for prospective review may include but are not limited to:

- inpatient hospitalizations
- outpatient procedures
- diagnostic procedures
- therapy services, including therapy for Pervasive Developmental Disorders
- durable medical equipment

Prospective review is required for all elective inpatient admissions and certain outpatient services. The review process evaluates medical necessity and the best level of care and assigns expected length of stay if needed.

Concurrent Review

Concurrent review is an ongoing evaluation of a member's hospital stay, as well as ongoing extensions of services that may be needed (such as acute care facilities, skilled nursing facilities, acute rehabilitation facilities, and home health care services). The review includes physicians, member-assigned health care professionals (or member authorized representative) and takes place by telephone, electronically and/or onsite.

Concurrent review uses pre-set decision criteria in order to approve medical care (deemed to be medically necessary) and assign the right level of care for continued medical treatment. Review decisions are based on the medical information obtained at the time of the review. Concurrent review also helps to coordinate care with behavioral health programs.

Retrospective Review

The retrospective review process consists of obtaining information to determine medical necessity as it relates to services provided without approval or notice ahead of time (e.g. without pre-service notification). Relevant clinical information is required for the retrospective review process. Review decisions are based only on the medical information the doctor or other provider had at the time the member received medical care.

Case Management

Case managers are licensed healthcare professionals who work with you to help you understand your benefits and support your health care needs. The case manager works with you and your doctor to help you better understand and manage your health conditions.

This document provides a brief summary of provisions and does not include the full extent of exclusions and limitations. If there is any difference between this document and the Policy, the Policy will prevail. We want you to understand what your coverage does not include before you enroll. The Policy/Evidence of Coverage booklets contain a comprehensive list of the plans' exclusion and limitations which you should read before you enroll. For a sample copy of the Policy/Evidence of Coverage booklet, ask your agent or contact Anthem Blue Cross.

This summary of benefits provided in the enclosed brochure complies with federal and state requirements, including applicable provisions of the recently enacted federal health care reform laws. As we receive additional guidance and clarification on the new health care reform laws from the U.S. Department of Health and Human Services, Department of Labor and Internal Revenue Service, we may be required to make additional changes to the summary of benefits in the brochure.

Selecting health coverage is an important decision.
